For Morihei Ueshiba, the founder of aikido, Shoji Nishio represented the future of aikido. Nishio Sensei produced a revolutionary, powerful and fully integrated martial art employing empty-hand, sword and jo interchangeably. This atemi or striking based approach allows aikido to be relevant as a martial art and at the same time remain true to the ethical and philosophical ideals of the founder. Nishio Sensei was highly ranked in aikido (8th dan), judo, karate, iaido & jodo. You will find an expression of all these arts in this complete approach to aikido. Nishio Sensei began studying aikido in 1951 and taught for more than five decades. In 2000, on his final trip to the U.S., Nishio Sensei appointed Koji Yoshida as his official representative to the United States. In 2012 Yoshida Sensei established Nishikaze Aikido Society of America (Nishikaze Aikido Kai) as the official organization of the Nishio aikido method in the U.S.

All affiliations are welcome to join three leading Nishio method instructors for this one day experience.
